

6516205176.txt

I am an XM Satellite radio subscriber, and am absolutely OUTRAGED that anyone would even CONSIDER making any changes to the programming lineup by eliminating ANY channel, much less a specific TYPE of channel such as weather and traffic. These services are very beneficial, and I would be deeply upset by any legislation to remove them from the programming lineup.
I urge you to REJECT the NAB's petition 04-160 without hesitation!!

Thank you,

S. Hirsch
